Production – Dr Jonathan Love

Storage –

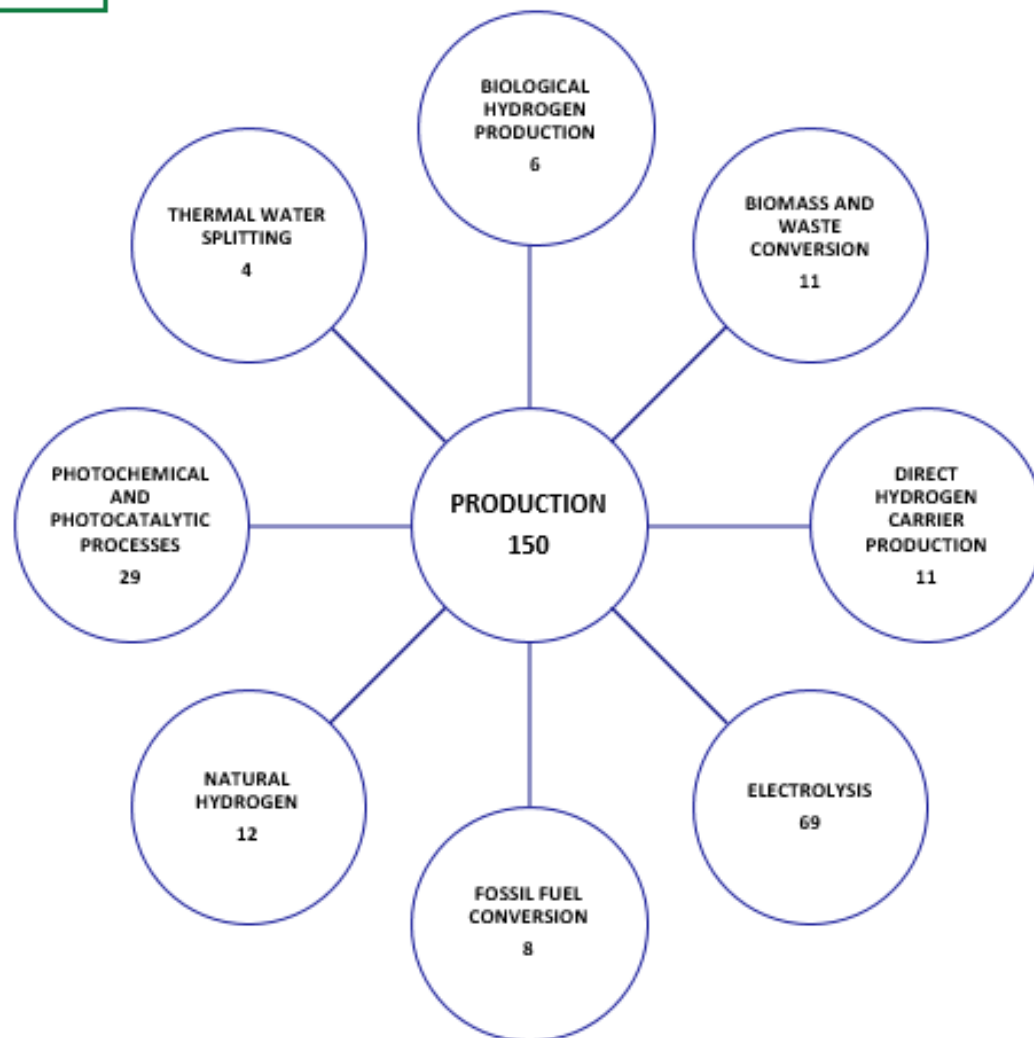

Distribution and supply –

Utilisation – Dr Quentin Meyer

Cross-cutting – Ailiche Goddard-Clegg

International – Dan O’Sullivan

## Production

## Cross-cutting

## Networking groups

Monthly meetings (online)

Provide a database of projects related to the group.

This initially will be those recorded on HyResearch.

Identify names of researchers involved (these do not always appear on HyResearch).

Set up a sharepoint or similar repository for information on the area of research

Run an online seminar

Provide a regular report (e.g., annually) on the status of the research area in Australia.
